Outstanding Service

At Choicechem we pride ourselves in providing outstanding service and support to all our customers, whether your business is big or small. Our staff have vast experience and product knowledge, which is available to you no matter what your cleaning problems are. Our emphasis is on safety with sound Environmental Policies, economy and performance.

On Site Training in Best Use of Products

Choicechem can provide training in the correct procedure for handling and mixing Chemicals. We can come to you or we can provide training at our in-house training facility.

100% Money Back Guarantee if you buy and try. Use a small amount and if you are not satisfied we will happily provide a refund upon return.

Results

It is our belief at Choicechem that if given the opportunity by you to develop a partnership, you will realise the benefits of making the right choice.

Our Environmental Policy

At Choicechem we are committed to leading the industry in minimising the impact of our products on the environment.

The key points of our strategy to achieve this are:

- ✓ Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- ✓ Choicechem do not discharge liquid waste from our production to drains.
- ✓ Where possible we use biodegradable alternatives to chemicals.
- ✓ We assist customers in making environmentally sensitive choices.
- ✓ We actively promote recycling both internally and amongst our customers and suppliers.
- ✓ Source and promote a product ranges that minimise environmental impact.
- ✓ Meet or exceed all the environmental legislation that relates to the Company.
- ✓ Choicechem products are made with ingredients that are the least likely to have an impact on our environment whilst maintaining superior product performance.

Choicechem has responded to the demand from customers for more environmentally responsible cleaning products which achieve exceptional results and hygiene standards at the lowest cost.

Our Eco-Choice Range is simple, cost effective and environmentally safe.

Eco-Choice Environmental Range

ECO BRIGHT

Is a highly effective product containing hydrophilic surface-modifying surfactants which removes dirt, lipstick and stains from all types of glass or other hard surfaces in both hard and soft water areas, leaving them sparkling clean.

ECO-CHOICE EXIT PEST

Eco-Choice Exit Pest is an environmentally friendly pest control spray. Spray directly onto insects or infested areas to eradicate unwanted pests.

ECO-CHOICE GP DETERGENT

Eco-Choice GP Detergent is a dishwashing and general cleaning detergent.

ECO-CHOICE MOP'N'GLOW

An excellent combination wash and polish product for the routine maintenance of heavy traffic sealed floors and unsealed light traffic areas. Mop'N'Glow provides amazing results with no rinsing necessary.

ECO-CHOICE ODOUR NEUTRALISER

Eco-Choice Odour Neutraliser is safe natural, non-toxic and biodegradable odour neutraliser effective at suppressing airborne odours commonly found at waste collection centres, sewerage pumping stations, toilet blocks, animal kennels, dairies, piggeries and food processing areas. Eco-Choice Odour Neutraliser is a non-bacteria based product used where there is little retention time, or the wastewater is inhabitable for biological odour control. Eco-Choice Odour Neutraliser encapsulates odour molecules which is far more successful than masking compounds.

ECO-CHOICE OVEN & HOTPLATE CLEANER

Eco-Choice Oven & Hot Plate Cleaner is a tremendously powerful blend of chemicals specially formulated to tackle the toughest, hardened food waste, greases, fats and stains from hard working ovens, grills and hot plates.

Its blend of sodium hydroxide, water softening agents and penetrating surfactants means that Eco-Choice Oven & Hot Plate Cleaner is equipped to take on jobs other cleaners aren't strong enough to handle. Eco-Choice Oven & Hot Plate Cleaner is a fully biodegradable product – use it as a powerful cleaner without worrying about damaging the environment.

ECO-CHOICE TRUCK WASH

Eco-Choice Truck wash has been developed in Australia as a heavy duty cleaner, designed to deal with the toughest grime and dirt. It's not caustic and contains no solvents – but its powerful foam has an unbeatable combination of surface action agents and emulsifiers.

ECO REVIVE

Eco Revive is a non-silicone based tyre and vinyl reviver. It is specially formulated to protect, enhance and preserve all vinyl and plastic surfaces in automotive, marine, transport and household applications.

ECO-CHOICE MY CHOICE

Eco-Choice My choice is an all purpose cleaner and commercial grade disinfectant for use in toilets, showers, office and communal areas where a quick, economical and efficient cleaner that disinfectants is required. My Choice is safe on all surfaces and suitable in all water types. My Choice is light rose in colour with a floral fragrance.

ECO-CHOICE FLOOR CLEANER

Eco-Choice Floor Cleaner is a neutral, hard surface cleaner. Eco-Choice Floor Cleaner removes light to general soiling from a variety of different surfaces including vinyl, stainless steel, linoleum, terrazzo, marble, glass and paintwork. It has a range of applications; cleaning tables, bar tops, desks, keyboards, door handles, fingerplates, handrails, mobility equipment, sporting equipment, surfaces in changerooms, saunas, steam rooms and sunbeds.

It will clean highly polished surfaces without streaking or affecting gloss finish. It is ideal for mopping floors, can be used as a spray on/wipe off cleaning product, suitable for spray cleaning using a high speed flood machine. Eco-Choice floor cleaner deodorises leaving a fresh lavender fragrance.

ECO-CHOICE SOIL WETTER

Eco-Choice Soil Wetter is a 100% active non-ionic wetting agent, formulated to remain effective in the soil throughout the growing season when using a single high rate of application. This product alleviates problems associated with Localised Dry Spot (LDS) from hydrophobic soils on all turf grass areas and improves water penetration. It can be used on fairways, garden beds, potted plants and to re-wet dry potting mixes.

ECO-CHOICE SPRAY AND WIPE

Eco-Choice Spray and Wipe is a neutral, hard surface cleaner. Eco-Choice Spray and Wipe removes light to general soiling from a variety of different surfaces including vinyl, stainless steel, linoleum, terrazzo, marble, glass and paintwork. It has a range of applications; cleaning tables, bar tops, desks, keyboards, door handles, fingerplates, handrails, mobility equipment, sporting equipment, surfaces in changerooms, saunas, steam rooms and sunbeds.

Eco-Choice Spray and Wipe can be used as a Pre-wash stain remover; being a food grade product it will not stain fabric and will soak and loosen stains. It will clean highly polished surfaces without streaking or affecting gloss finish. It is ideal for mopping floors, can be used as a spray on wipe off cleaning product, suitable for spray cleaning using a high speed flood machine. Eco-Choice Spray and Wipe leaves a fresh lavender deoderising fragrance.

ECO KLEEN

Eco Kleen is a powerful, plant based, heavy duty, degreaser concentrate. Apply undiluted by spray or may be diluted for brushing or use in a spray applicator, it can be used in high-pressure cleaners. It is a quick break degreaser/cleaner for light to heavily soiled and greased surfaces. Performance approaches the effectiveness of hydrocarbon based solvent degreasers. Eco Kleen is low in VOC's, is biodegradable and noncarcinogenic.

Bathroom & Toilet Cleaners

CHLOR GEL

Chlor Gel is a thickened, high foaming, chlorinated liquid cleaner/sanitiser formulated to help sanitise while quickly and effectively removing mould and stubborn stains leaving a germ-free, streak-free surface. Chlor Gel is made up of a complex chemical formula designed to remove germs, mould and fungi from stainless steel, metal, plastics and dark/damp areas such as toilets and showers.

COMMAND

Command is a powerful cleaner designed to sanitise and deodorise toilet bowls and urinals. It is equally effective on porcelain and stainless steel. Command can also be used on grouting in tiled areas such as showers and bathrooms. It is easy to use and has a pleasant fragrance which remains long after the cleaning is finished.

SAFEGUARD

Safeguard is a powerful, concentrated cleaner designed to sanitise and deodorise toilet bowls and urinals. It is equally effective on porcelain and stainless steel. Safeguard can also be used on grouting in tiled areas such as showers and bathrooms. It disinfects and cleans in one operation. It is easy to use and has a pleasant floral fragrance leaving the area smelling clean and fresh.

Deodorisers & Disinfectant Deodorisers

FRESH TALC

Fresh Talc is a concentrated, long lasting air freshener and surface deodoriser formulated to neutralise odours. Fresh Talc has a delicate talc fragrance with outstanding lingering ability. Because it contains no chemical solvents Fresh Talc is perfect to use around furniture and fittings. Fresh Talc is suitable for use in bathrooms, toilets, aged care homes, offices, buses, waiting rooms, restaurants, bars, clubs, clinics, child care centres, hospital wards and garbage bins.

CASCADE

Cascade is a disinfectant, cleaner and deodoriser. Cascade can be diluted up to 50:1, depending on how dirty the surface to be cleaned is. Dilute 10:1 with water as a room deodoriser.

ZONE FRESH

Zone Fresh is a multipurpose, high performance, fast acting, economical disinfectant and cleaner which disinfects, cleans and deodorises all in one. Zone Fresh's hard working antibacterial agents leave surfaces clean and germ-free. Once diluted Zone Fresh can be applied directly onto curtains and soft furnishings using a light spray.

EUCALYPTUS, PINE & LEMON DISINFECTANTS

Cleaner/deodorant with anti-bacterial properties. Ideal for use in hotels/motels, commercial buildings, offices, schools, caravan parks, toilets, washrooms, shower recesses and recreational areas as a disinfectant and deodoriser. It quickly and efficiently kills bacteria leaving hard surfaces clean and sanitised. Destroys odour-causing bacteria and leaves behind a pleasant fragrance. Eucalyptus, Pine and Lemon Disinfectants are free rinsing and safe to use.

RE-ODOUR PLUS

Re-Odour Plus is a non-toxic, solvent free, water based, effective air freshener/deoderiser. Ideal for use in hotels, accommodation areas, restaurants and is safe to use around carpets and curtains as it contains no solvents.

Hand Hygiene

BARRIER CREAM

Barrier Cream provides your skin with a short-term shield to protect it from potentially harmful contaminants. Choicechem Barrier Cream contains eucalyptus oil, which has unique antibacterial/antiseptic properties along with ingredients that keep moisture in the skin, helping to keep it soft and supple.

INDUSTRIAL HAND CLEANER

Industrial Hand Cleaner is an abrasive, water based, solvent free hand cleaner designed to remove the toughest grease and dirt. Industrial Hand Cleaner is formulated with high quality, biodegradable surfactants and contains natural eucalyptus oil which is a powerful sanitiser & degreasing agent and also leaves a pleasant fragrance. The cleaning action is further improved by the inclusion of polymer beads which gently massage the skin helping to loosen grease and dirt. Industrial Hand Cleaner is perfect for use in mechanical workshops, mining, farming and around the home.

GENTLE TOUCH

Gentle Touch is a mild liquid hand soap, containing skin friendly cleaning agents and emollients. It is designed specifically for use where cross infection may be of concern. Gentle Touch is a fast acting cleaner for quick and effective removal of soil and microbes from hands.

IN TOUCH

In Touch is a mild liquid hand soap, containing skin friendly cleaning agents and emollients, designed specifically for use where cross infection may be of concern. In Touch is a fast acting anti bacterial cleanser for quick and effective removal of soil and microbes from hands.

SANITISING HAND GEL

Hand washing is essential in preventing the spread of illness, however when used alone is not enough to kill bacteria. Antibacterial hand sanitisers work quickly to destroy bacteria, and are easy to use.

STAY SAFE SANITISING HAND SPRAY

Stay Safe Hand Sanitiser is a highly effective liquid hand sanitiser killing 99.9% of bacteria on your hands. The product is manufactured in accordance with World Health Organisation guidelines, is quick drying with a light geranium fragrance and has the ability to prevent cross contamination. Stay Safe Hand Sanitiser is safe to use on surfaces like keyboards and telephones. Stay Safe Hand Sanitiser is not sticky and dries streak free.

Multipurpose Cleaners/Products

COMMERCIAL VINEGAR

Vinegar has a thousand uses with the benefits of vinegar now being realised in the cleaning industry. Vinegar is an eco friendly odour remover, window cleaner, disinfectant and surface cleaner.

DISTILLED WATER

Distilled Water is passed through a filtration process during which minerals are removed. Clear, colourless and odourless liquid, non-hazardous, can be used with most coolants.

GEAR KLEEN

A tremendously powerful blend of materials specially formulated for cleaning the toughest, hardened food waste and stains. It is ideal for cleaning oven and hot plates and as a floor degreaser. Gear Kleen is completely biodegradable.

METHYLATED SPIRIT

Methylated Spirit is also known as Industrial Methylated Spirit and IMS95. 95% industrial Ethanol commonly used as a general purpose cleaner and a component of many chemical cleaning formulations.

SHOW SHINE

Show Shine Shampoo and Conditioner is the perfect combination to clean and condition your dogs, cats and small animals. It is all natural with no nasties, a lovely light coconut scent from pure coconut oils which promote a healthy coat and help prevent dry or flakey skin.

STABLE & KENNEL

Choicechem All-Purpose Stable & Kennel Wash will change the way you think about cleaning your livestock and pets surroundings! The deep penetrating formula cleans areas prone to pathogens, viruses, bacteria and fungus. It works to neutralize odour and reduce fly exposure, contains quaternary ammoniums and which are laboratory tested as well as Veterinarian approved. Unlike traditional toxic sanitizing steps such as bleach or chlorine, All-Purpose Stable & Kennel Wash is made from non-toxic, food-grade safe ingredients. This proudly made in the Australia product cleans on contact and has a unique pleasant and pleasant fragrance. It is safe, is also biodegradable and is non-corrosive.

Laundry Washing Liquids, Powders, Soakers & Softeners

ALKALAUND

Alkalaund has been formulated as an alkali booster to produce top quality results in commercial laundry systems. Alkalaund contains a generous amount of water softeners, helping to reduce or remove entirely the staining which can be caused by hard water. Alkalaund is suitable in all water conditions. Alkalaund's highly concentrated formula provides excellent economy and leads to fewer drum changeovers.

CUDDLE SOFT

Cuddle Soft is a biodegradable fabric softener/anti static product that softens and lubricates fabrics, extending their life. With Cuddle Soft you will have no more clingy clothes. Cuddle Soft contains highly effective anti-static agents, leaving the most tired fabrics soft and fluffy.

NEW DET

New Det is a superior phosphate free, double strength fabric washing liquid containing water softening agents. New Det is economical to use, producing top quality results while using only a small quantity. New Det is especially suited for washing delicate fabrics such as woollens and poly-cottons. New Det is safe to use in all water systems including septic tanks. It is designed to be safe when washing whites and equally as effective on coloured wash loads. New Det cleans well in both hot and cold washes.

FRESH LAUND

Fresh Laund is a highly active, concentrated cleaning powder which effectively removes all types of soils. It's concentrated formulation ensures greater economy, it is suitable in all water conditions, has a pleasant talc fragrance leaving your clothes smelling fresh. Fresh Laund is safe to use in both top and front loading domestic washing machines in either hot or cold water and on any garments where powdered detergent is preferred.

FIRST CHOICE

First Choice is a premium strength laundry detergent powder of outstanding quality and efficiency. It is ideal for use in both domestic and commercial machines. It contains safe oxygen bleach for extra whitening power on whites and colours. It also acts as a sanitiser when used as a soaker for nappies and badly stained garments.

LAUNDETTE

Laundette is a highly active concentrated cleaning powder effective in removing all types of soils. It is safe to use in all domestic washing machines, both top and front loading and on any garments where detergent powders are preferred. Laundette may be used in both hot or cold water, however optimum results are achieved in warmer conditions.

OXYLAUND

Oxylaund is a double strength laundry detergent powder of outstanding quality and efficiency. It is ideal for use in both domestic and commercial machines. It contains safe oxygen bleach for extra whitening power on whites and colours. It also acts as a sanitiser when used as a soaker for nappies and badly stained garments.

RAPID RESTORE

Rapid Restore is a true double strength laundry soaker of outstanding quality and efficiency. It contains safe oxygen bleach for extra whitening power on whites and colours, sanitising at the same time as cleaning. Use as a soaker for nappies and badly stained garments.

Liquid Bleach

BLEACH 4%

Bleach 4% is liquid sodium hypochlorite bleach that can be used for sanitising, deodorising, cleaning, whitening and removing stains.

BLEACH 12.5%

Bleach 12.5% is a concentrated chlorine solution that may be used in food processing areas for sanitising or in general areas for mould and mildew removal. As a concentrate Bleach 12.5% offers excellent economy and flexibility in a wide range of areas.

HP 50%

HP 50% is a concentrated, colour safe bleach. It is effective in removing stains and brightening both white and coloured fabrics. It can be used successfully on most washable fabrics. HP 50% will not affect the resin finishes that are applied to some fabrics for crease resistance.

LEMON BLEACH

Lemon Bleach is an all-purpose bleach that whitens and brightens whites, removes difficult stains with ease, kills 99.99% of germs, sanitises, deodorises and removes mould and soap scum as well as moss and grime. Lemon Bleach is a hospital grade disinfectant, which means a hygienic, and effective clean every time leaving a fresh lemon scent.

Dish Washing & Dishwasher Liquids, Descalers & Rinses

DISH CHOICE

Dish Choice is a non-chlorinated, highly active machine dish washing compound containing high levels of water softening agents and fast acting grease emulsifiers. Dish Choice works exceptionally well in most water types and conditions. The non-caustic formula removes the toughest food soils and stains, leaving crockery and cutlery squeaky clean. Dish Choice quickly and efficiently removes stuck on food waste. Environmentally friendly Dish Choice is safe to use with septic tank systems and cleans just as efficiently in hot or cold washes. Safe to use on all eating utensils, crockery and even on fine china. Dish Choice's water softening chemistry helps to avoid scale building up in your machine. Its concentrated formula means that Dish Choice is economical to use. Dish Choice's low foaming formula allows the dishwasher to maintain the water pressure it needs in order to clean efficiently.

MACHINE WASH

Machine Wash is a concentrated, powerful, low-foam, economical, liquid detergent for use in all dish washing machines. Machine Wash won't clog up your dishwasher with scale – its special water softeners prevent scale build-up. Machine Wash's special compounds quickly dissolve oils and food residues. Machine Wash produces excellent results first time.

SUNGOLD

SunGold is a premium, high quality, biodegradable, dish washing liquid that will not harm the environment. It effectively cleans all types of wares, removing the toughest of soils. The unique detergent blend promotes sparkling clean results and does not make wares slippery to handle. SunGold also contains skin softeners leaving your hands feeling fresh and revived. SunGold is economical; just a small amount is needed to clean away the toughest soils leaving wares sparkling clean.

The special non-streak formula means that SunGold is great for glassware. SunGold performs well in hard water conditions and it's fresh citrus fragrance makes SunGold a pleasure to use.

TOP DROP

Top Drop is a quality dishwashing detergent that cuts through grease and food soils quickly, leaving wares sparkling clean in a reduced cleaning time. Top Drop is mild on hands and rinses to a streak free finish. Top Drop's quality formulation gives excellent results and economy.

MACHINE RINSE

Machine Rinse has been specially formulated to eliminate water spotting on glassware, crockery and cutlery. Machine Rinse is ideally suited for use in all commercial, and automatic dish washing machines. Machine Rinse has been developed to make dishwashers more efficient. Machine Rinse is a combination of specialist chemicals which break down food waste quickly. Machine Rinse is very economical to use – it has been designed to work efficiently at very low dilutions. Machine Rinse is kind to your machine.

It contains water softeners which help reduce scale build up in dishwashers. Because Machine Rinse is primarily a rinsing agent it's a very low foaming product. Your dishes will be left rinsed clean, dry and streak free. Machine Rinse is a premium product – cost effective and super-efficient.

PHOSPHORIC ACID

Phosphoric Acid is used in kitchens for descaling washing machines.

DESCALER

Descaler is a safe, non-flammable, free rinsing, biodegradable product for the removal of hard water scale build up in dishwashers, urns, bain-maries, toilet bowls, showers and stainless steel surfaces. Descaler can also be used to remove concrete slurry adhered to metal surfaces and red dust build up on vehicle duco. Descaler is based on an organic acid and is safe to use on all ferrous metal surfaces. It is a concentrates product so can be diluted depending on the level of soiling. It is safe to use on painted surfaces providing it is not allowed to dry.

Sanitisers/Food Processing

CANSAN

Cansan is a powerful rinse free cleaner/sanitiser ideal for use in food preparation areas. Cansan is a concentrated quaternary disinfectant that keeps bacteria to the lowest possible count. Cansan sanitises floors, walls, benches and processing equipment and can be used wherever a hospital grade sanitiser is required.

CENTURY

Century is a blend of cleansers combining caustic agents, chlorine and sequestrates into a single high-foam cleaner. Century is tough on protein and fat deposits but it won't harm the soft metals so commonly used in processing lines. Century has been specially designed for use in busy food processing plants.

FRESH & PURE

Peroxide based sanitiser and deodoriser for use in the fish processing, meat processing and fruit and vegetable establishments. Fresh & Pure is a highly effective product essential for good food hygiene and keeping bacterial counts ultra-low. Its rinse free formula means it can be used to sanitise during daily production.

TREBLE FOAM

Treble Foam chlorinated degreaser is formulated with high amounts of sodium hypochlorite to provide a fast cleaning action, quick protein removal and destaining of plastic cutting boards and counter surfaces. High alkalinity in a chlorinated degreaser formula provides extra heavy-duty cleaning and degreasing power. Treble Foam's buffered alkaline components react with fats (saponification) to emulsify, suspend, and remove fatty soils, greases, oils and carbonised soils.

Odour Control and Waste Dispersant

BIO 8 LIQUID & TABLETS

A concentrated blend of environmentally friendly nutrients that promote indigenous bacterial growth. This is the most effective approach to restoring microbial balance in aerobic conditions. Effective odour reduction, safe natural and environmentally sustainable approach to controlling waste problems, proven in multiple industrial applications, simple to apply, efficient removal of organic effluent including BOD, COD, TDS, faecal coliforms, biological breakdown of fats, oils, grease, proteins and starches in waste water, reduce sludge in sewage ponds, fat build-up and blocked drains.

URINAL BLOCKS

Urinal Blocks are dependable and economical odour suppressants and air fresheners for domestic, commercial and industrial applications. Urinal Blocks are biodegradable, slow volatilising blocks which reduce odours in urinals. They do not crumble or dissolve in water.

BOAT AND BILGE

Boat and Bilge is effective in suppressing airborne odours in most areas. Boat and Bilge can be diluted with water up to 20:1 depending on odour, spray onto affected areas or use in a carpet cleaner. Boat and Bilge will remove odours and keep them gone.

ODOUR CURE

Odour Cure is effective at suppressing airborne and waterborne odour commonly found at waste collection centres, sewerage pumping stations, piggeries, food processing areas and in portable toilets. Odour Cure is a non-bacteria based product used where there is little retention time or the wastewater is inhabitable for biological odour control. Odour Cure is safe, natural, non-toxic and biodegradable

BIO CURE

Bio Cure is one of a unique class of cationic surfactants which are effective deodorisers. Bio Cure actually neutralises various malodours by forming a complex with specific organic molecules and reducing their concentration in the vapour phase.

Bio Cure is effective in the reduction of odours in the following environments; effluent odour, food processing plant odour, sanitary landfill and industrial livestock holdings

Degreasers & Grease Removers

EXIT GREASE

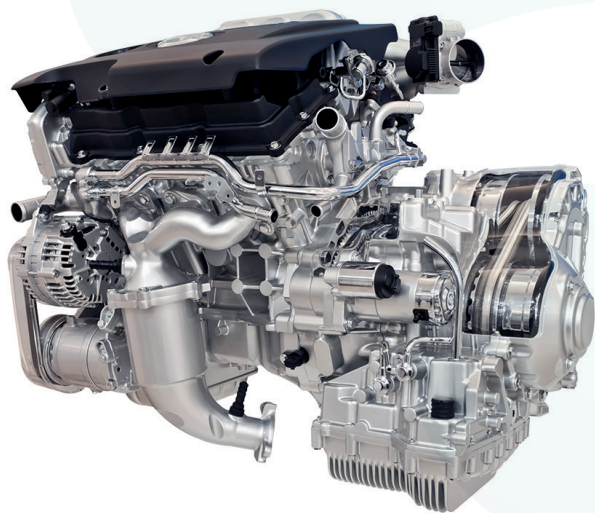

Exit Grease is an economical, multipurpose cleaner and degreaser. It can be used for heavy duty degreasing of floors, walls, food preparation benches and toilets. Exit Grease can be used on domestic and commercial surfaces, motors and machinery. Exit Grease is also effective as an oven and grill cleaner as well as a general spray and wipe.

GORILLA

Gorilla is a fully biodegradable product – use it as a powerful cleaner without worrying about damaging the environment. Gorilla is a tremendously powerful blend of chemicals specially formulated to tackle the toughest, hardened food waste, greases, fats and stains from hard working ovens, grills and hot plates. Its blend of sodium hydroxide, water softening agents and penetrating surfactants means that Gorilla is equipped to take on jobs other cleaners aren't strong enough to handle. Gorilla quickly penetrates grease and hardened carbon deposits. It's highly concentrated formula makes it economical to use and its stable formulation (ie: there is no deterioration during storage) minimises wastage of the product.

LIFTER

Lifter is a special blend of alkaline salts and detergents designed to clean hard surfaces such as concrete. Suitable for removing heavy baked on fats, grease and carbon. It is particularly effective on fatty, greasy and oily surfaces. It is ideal on cement.

SURE KLEEN

Sure Kleen is a multipurpose cleaner for commercial and industrial cleaning. This versatile product has three cleaning actions; detergency, emulsification and solvency. The product is biodegradable and safe to use on most surfaces. Sure Kleen can be used in a wide range of applications such as removing grease and grime from walls, doors, food preparation benches, bathrooms, toilets, concrete, floors and as a general spray and wipe.

OVEN SOLVE

Oven Solve is a non-toxic, eco-friendly, non-caustic, fume free, biodegradable oven and hotplate cleaner. Suitable for the safe removal of grease and grime from BBQ hotplates, grills, racks and ovens. This powerful, yet non-caustic formulation contains special active ingredients which penetrate baked on substances and will remove most stubborn soils from all surfaces. Emulsifying agents allow free rinsing for a residue free surface ensuring that there is no opportunity for bacteria to grow.

CRACKDOWN

Crackdown is a liquid alkali degreaser cleaner suitable for removing heavy baked on fats, grease and carbon. It is used to clean floors that are heavily soiled in grease and fats. It is also suitable for cleaning ovens.

ECO KLEEN

Eco Kleen is a powerful, plant based, heavy duty, degreaser concentrate. Apply undiluted by spray or may be diluted for brushing or use in a spray applicator, can be used in high-pressure cleaners. It is a quick break degreaser/cleaner for light to heavily soiled and greased surfaces. Performance approaches the effectiveness of hydrocarbon based solvent degreasers. Eco Kleen is low in VOC's, is biodegradable and noncarcinogenic.

THOR KLEEN

Thor Clean is a heavy duty cleaner that combines powerful degreasing agents with a powerful foam to cut through the toughest of dirt and grime. Its suitable for all surfaces, floors, walls and food preparation in a domestic and commercial applications including. Thor clean is also an amazing heavy duty Truck and machinery wash, outperforming other market leading products.

Rust & Corrosion Removers

ACE

Ace is a blend of acids, emulsifiers, wetters and surfactants formulated to remove tenacious metallic-ferrous deposits from painted surfaces, stainless steel and aluminium.

Ace is simple and practical to use. Ace has excellent rinsability leaving a streak free appearance. An efficient product for the removal of rust and iron stains from paint and metal work. Also used as a cleaner and descaler or for the cleaning and brightening of metals such as aluminium and stainless steel. Ace leaves a passivating film on steel, which protects against re-rusting. Ace must be rinsed off with water after use. Ace can be neutralised using Eco Kleen and then re-rinsed if there are concerns about residual acid.

CORRO WASH

Corro Wash is a revolutionary corrosion treatment that removes all corrosion and rust from surfaces, leaving a clean base metal to work with. It is a non-hazardous, water based solution that is biodegradable and will not harm the environment. It contains no solvents, phosphates or caustic elements. Corro Wash is used to clean chains, engine blocks, generators and to clean metal prior to galvanising. Whole engine blocks can be immersed without the removal of water hoses, fan belts, electric generators and starter motors.

EXIT RUST

Exit Rust is an environmentally friendly, water based rust converter. Exit Rust reacts with rust to create stable surfaces of iron tannate, haematite and magnetite, thus forming a strong organic matrix bond with the metal to keep rust at bay. It is ideal for treating metal farm sheds, buildings, steel yards, corrugated iron roofs, irrigation equipment, farm vehicles and parts, reinforcing steel, concrete and other types of construction. Protection is given to plates, pipes, flanges, joints and structural members before installation. Exit Rust has been approved for use in areas such as grain silos and food storage areas. Exit Rust has the Australian Health Department approval for use in rainwater tanks and food preparation areas. It does not contain solvents, corrosive mineral acids or phosphates.

PHOSBRITE - DESCALER, MULTIPURPOSE CLEANER, RUST & CORROSION REMOVER

Phosbrite is an organic, acid based cleaner and descaler for use in the removal of rust deposits and hard water scale deposits. It is safe to use on all metals. If you are dealing with major rust and scale build up problems, Phosbrite is the answer. It is also an excellent detergent that speeds up the removal of most types of dirt and soiling that accompanies rust and scale removal.

PHOSBRITE MARINE

Phosbrite Marine is a non-hazardous version of Phosbrite, specifically designed for the marine industry. It is an organic, acid based cleaner and descaler for use in the removal of rust deposits and hard water scale deposits. It is safe to use on all metals.

RED ROAR

Red Roar is a biodegradable, thickened cleaner, which works by removing scale; rust and dirt build up on all types of industrial and commercial equipment and plant. Red Roar will work best if loose dirt, grease and oils are removed first using Exit Grease or any of our cleaners/degreasers. Use Red Roar to remove iron stains, calcium build-up, lime scale, stains, discolouration, aluminium oxide, salt and corrosion on glass, stainless steel, painted surfaces and aluminium. Red Roar quickly foams and rinses away freely. Use Red Roar as a spray-on/rinse-off application for truck/fleet washing or as an acid wash bath. Red Roar can also be used to remove brake and rail dust from rims, side rails and painted surfaces. Red Roar can be diluted with water to remove light soiling.

Releasing Agents (for concrete and asphalt)

BITUMEN & ASPHALT REMOVER & CLEANER – B.A.R.C.

B.A.R.C. is an environmentally safe bitumen and asphalt remover. Derived primarily from natural, edible plant oils, B.A.R.C. is free of Volatile Organic Compounds (VOC's) and traditional solvents making this technology available to address the environmental issues surrounding the removal of bitumen, asphalt and heavy duty grease. B.A.R.C. can be used on all equipment associated with the application of bitumen and asphalt. It can also be used on concrete, paving, curbing and brickwork.

LOAD RELEASE

Load Release is a completely biodegradable alternative to diesel and kerosene release agents. The application of Load Release provides an active film designed specifically to reduce the adhesion of concrete, asphalt and bitumen to surfaces.

Specialty Products

AC LUBRICANT

AC Lubricant is a multipurpose product designed to displace moisture, penetrate rusted parts and lubricate otherwise inaccessible places and engine parts. AC Lubricant stops annoying squeaking; it cleans and protects surfaces from corrosion. AC Lubricant's many practical uses include automotive and marine maintenance, engineering, transport, industrial and commercial equipment. It can be used at work or around the home.

DUST CONTROL

Dust control is a blend of recycled, organic ingredients that binds dust particles for a considerable period. 100% Environmentally safe and completely bio-degradable. All natural ingredients. Safe for people and animals. Suitable for access roads, carparks, loading bays, equestrian arenas, building sites and erosion control. Dust Control is sprayed over the required area, no specialised application equipment is required.

FOOD MARKING INK

Meat Marking Ink for use in the meat industry. Available in blue, orange/gold and red.

HAIR & BODY WASH

Hair & Body Wash is a soap free, hypoallergenic hair and body wash. Hair & Body Wash is a pleasantly perfumed body wash and shampoo. It contains rich penetrating moisturisers which impart a smooth soft feel to hair and skin.

HYDRO CLEAN (DUET) - DUAL PURPOSE CLEANER

Duet is a highly effective, dual purpose, concentrated, non-caustic detergent for cleaning beer lines and glassware. Duet contains hydrophilic surface modifying surfactants which remove dirt, lipstick marks and stains from all surfaces in both hard and soft water areas, leaving them sparkling clean. Duet is ideal for use in automatic glass/dish washing machines. Surfaces that are hydrophilically modified with Hydro Clean will enable the surface to resist lime scale, soap scum build-up and allow for easier removal of greasy soils and general dirt.

CAUSTIC POWDER OR LIQUID (TANK AND BEER LINE CLEANER)

Caustic is used to clean tanks and beer lines. Available in handy prepackaged bags for easy application. No need to measure, which means no double handling.

PEROXITANE/SANITANE (TANK AND BEER LINE CLEANER)

Peroxitane/Sanitane Tank and Beer Line Cleaner is effective against a wide spectrum of microbiological contaminations including aerobic and anaerobic bacteria and their spores; yeasts, moulds, fungi and their spores, and viruses. It is extremely rapid in its action at ambient temperatures.

ZEST - CREAM CLEANSER

Zest is a fully biodegradable, environmentally friendly, phosphate free, non-abrasive, cream cleanser, designed for use as an easy rinsing all-purpose hard surface cleaner. Zest contains a subtle blend of surfactants which help break down grease, along with dental grade pumice stone which polishes surfaces without scratching. It is ideal for baths, basins, tiles, stove tops, stainless steel sinks and all hard surfaces. Zest rinses away easily leaving behind a clean, polished surface and a pleasant fragrance. Zest contains highly active ingredients therefore you only need to use a small amount for each task, making Zest economical to use.

T1000 - DTW

T1000-DTW is the only safe, reusable and environmentally responsible industrial pipe and tank cleaning solution on the market. T1000-DTW addresses hydrocarbon build up in tanks and pipes that presents in the form of sludge, grime, asphaltene and waxes or contaminants.

T1000-DTW efficiently reduces viscosity and can be used in Refineries, Oil/Fuel storage, Shipping Tankers, Bitumen Factories, Bitumen Tankers, Oil Pipelines, Road Tankers, Fuel Supply Lines, Bitumen Pipes, where it has delivered consistent outstanding results.

FRESH LAWN

Fresh Lawn is a safe and economical odour control solution for pet smells on synthetic grass and backyard areas. It leaves outdoor play areas smelling fresh and clean. All natural ingredients for the safety of your pets and our environment.
