

# EUCALYPTUS, PINE & LEMON DISINFECTANTS

This multifunctional commercial-grade disinfectant not only cleans and deodorises but also boasts powerful antibacterial properties, all in a single application.

## Product Details

With eucalyptus, pine, and lemon variants, these disinfectants effectively eliminate bacteria on hard surfaces and ensure cleanliness and sanitation. Additionally, it acts as a deodoriser, destroying odor-causing bacteria and leaving behind a refreshing scent. Suitable for cleaning floors and walls, as well as for use as a spray and wipe sanitiser in non-food contact areas

## Application

**Day-to-day disinfecting:** dilute between 1:40 with water.

**Toilets, showers and washrooms:** dilute at 1:30 with water.

## Additional Notes

- Contains Quaternary Ammonium, effective against bacteria and viruses.
- Available in 5L, 20L, 200L & 1000L.

## Industry Suitability

### **Hospitality-**

Accommodation, wineries, breweries & bars

**Healthcare** - Hospitals & aged care facilities

**Mining** - Accommodation & kitchens

**All toilets & showers** - Offices, residential, schools & early education centers

## Environmental Benefit

All products are formulated with biodegradable ingredients, ensuring minimal harm to the environment. They are inherently economical, reducing waste and promoting a healthier ecosystem.
