choicechem

HP 50%

HP 50% is a concentrated, color-safe bleach effective in removing stains and brightening both white and colored fabrics.

Product Details

Hydrogen peroxide is a strong oxidiser that can be used on most washable fabrics without affecting resin finishes that are applied to some fabrics for crease resistance.

Application

- Determine the appropriate amount based on the load size and fabric type. **See Choice Chem rep for recommended amount.**
- Add HP 50% to the detergent dispenser or directly into the washing machine drum.
- Start the washing cycle as usual.
- For heavily soiled or stained items, pre-treat the stains by diluting HP 50% with water and applying it directly to the stained area before washing

Additional Notes

Available in 5L, 20L, 200L & 1000L.

Industry Suitability

Hospitality - Hotels, hostels and airbnbs

Mining- Laundries and housekeeping
