

LAUNDETTE

Laundette is a highly active, concentrated laundry washing powder that efficiently removes various types of soils.

Product Details

It is a commercial grade powder, suitable for both top and front-loading washing machines, on any garments where detergent powders are preferred. Laundette may be used in both hot or cold water, however optimum results are achieved in warmer conditions.

Application

- **For front-loaders and twin tubs:** Use $\frac{1}{4}$ cup for light loads & $\frac{1}{2}$ cup for full loads.
- **For top-loaders:** Use $\frac{1}{4}$ cup for light soils & $\frac{1}{2}$ cup for full loads.

Additional Notes

- For optimal results, pair with our **Cuddle Soft** fabric softener.
- Available in 5kg, 10kg & 20kg.

Industry Suitability

Hospitality - Hotels, hostels and airbnbs

Mining - Laundries and housekeeping

Healthcare - Hospitals and aged care facilities

Residential

Environmental Benefit

All products are formulated with biodegradable ingredients, ensuring minimal harm to the environment. They are inherently economical, reducing waste and promoting a healthier ecosystem.
