SAFEGUARD

Safeguard is a powerful, concentrated cleaner designed to clean and sanitise heavily stained porcelain and stainless steel.

Product Details

Safeguard is best used to remove long-term calcium and rust stains on toilet bowls and urinals. By disinfecting and cleaning in one operation, it is easy to use and has a pleasant floral fragrance leaving the area smelling clean and fresh.

Application

Toilet Bowls: Apply enough product to cover the surface and brush around the bowl thoroughly – then flush away.
Urinals: Use an atomiser to spray product to over the whole surface of the urinal, then brush thoroughly and rinse off.
Floor Tiles: Dilute the product 1:10 with water. Brush thoroughly then wash off the residue with water.

Additional Notes

Available in 5L, 20L, 200L & 1000L.

Industry Suitability

Hospitality- Accommodation, wineries, breweries & bars

Healthcare - Hospitals & aged care facilities

Mining - Accomodation

Environmental Benefit

All products are designed to minimise harm to the environment by incorporating biodegradable ingredients, reducing pollution, and promoting a healthier ecosystem.
