SUNGOLD

A premium dishwashing liquid renowned for its exceptional quality and effectiveness in removing tough soils from all types of wares.

Product Details

SunGold requires only a small amount to tackle the toughest soils, rinsing away completely for fewer breakages and non-streak results, especially on glassware. Enriched with natural skin softeners, it leaves hands feeling fresh and revived. Environmentally friendly and biodegradable, it boasts a delightful citrus fragrance and performs excellently even in hard water conditions.

Application

- Use SunGold at a rate of 10-15 milliliters per 10 liters of hot water, adjusting based on the level of soil to be cleaned.
- For enhanced efficiency and economy, consider automatic dispensing through an automatic measure pump.

Additional Notes

Available in 5L, 15L, 20L, 200L & 1000L.

Industry Suitability

Hospitality- Accommodation, wineries, breweries & bars

Healthcare - Hospitals & aged care facilities

Office kitchens

Environmental Benefit

All products are formulated with biodegradable ingredients, ensuring minimal harm to the environment. They are inherently economical, reducing waste and promoting a healthier ecosystem.
